PROJECTS

SIMON GAME

An engaging Simon game crafted with jQuery and JavaScript, challenging player's memory and reflexes with colorful patterns and sounds.

TODO LIST

The ToDoList Web Application is a user-friendly tool for managing daily tasks, built using EJS, PostgreSQL, Express, and Node.js. It features the ability to create a new task, checkbox the completed on and option to edit and delete the task.

BLOG APPLICATION

Developed a full-stack blog application using the MERN stack (MongoDB, Express.js, React, Node.js). The application allows users to create, read, update, and delete blog posts with authentication and role-based access. Implemented a responsive design, dynamic routing, and API integration to provide a seamless user experience. Focused on performance optimization and scalability while maintaining clean and modular code.

EDUCATION

BACHELOR OF COMPUTER APPLICATIONS
The Oxford College Of Science
2021 - 2024
